YVES LOÏC SOATIANAINA

AI | LLMOps Engineer

yvesloic58@gmail.com | linkedin.com/in/yves-loic | github.com/YvesLoic5 | WhatsApp: +261 32 92 643 06 | Antananarivo, Madagascar

PROFESSIONAL EXPERIENCE

AI & LLMOps Engineer — Swiftask *Mar 2024 – Present (2 years)*

Nantes, France

- Developed and deployed AI agents and LLM-based applications
- Implemented LLMOps pipelines using VLLM, Ollama, and Hugging Face Products
- Built scalable AI infrastructure with Kubernetes and DevOps practices
- Developed backend services using Python, TypeScript, FastAPI with PostgreSQL and Redis
- Integrated vector databases (Qdrant) for semantic search and RAG applications
- Implemented LangChain and LangGraph for complex AI agent workflows
- Set up monitoring and observability using Grafana
- Managed message queuing systems with AMQP for distributed AI processing
- Version control and collaboration using Git

Platform Engineer — app.ia-souveraine.fr *Mar 2024 – Present (2 years)*

Nantes, France

- Developed and maintained sovereign AI platform infrastructure
- Deployed and orchestrated containerized AI services with Kubernetes
- Managed Kubernetes clusters using Lens, Octant, and kubectl
- Implemented CI/CD pipelines for automated deployment of AI models
- Ensured platform reliability, scalability and security
- Integrated monitoring solutions with Grafana for platform observability

AI Engineering Intern — Dabilio *Aug 2024 – Dec 2024*

Antananarivo, Madagascar

- Developed an intelligent application for career and academic orientation based on the RIASEC model
- Worked with Large Language Models (LLMs), including Gemma and Gemini
- Integrated and managed models using Hugging Face
- Developed with Graph Databases (Cypher) and Vector Databases (Pinecone)
- Utilized Python frameworks: FastAPI, Uvicorn, Flask

ACHIEVEMENTS

- **Two-Time Valedictorian**: Ranked first in Computer Science and in Accounting and Finance
- **Ambassador of Madagascar**: International Computer Science Competition
- **Silver Honour, International Youth Math Challenge 2024**: ID: F-2023-F59480546B1
- **Conference Speaker**: Presented at Google IO 2024 on “What’s New in Gemini”
- **Published Articles**: Authored technical content on Medium and LinkedIn, covering topics such as Pearson Correlation and Integer Overflow
- **Active Member, Google Developers Group Antananarivo**: Contributed to the organization of DevFest 2024

EDUCATION

AI & Big Data Engineer *Oct 2022 – Present*
GE-IT Andranomena, Madagascar

Bachelor’s in Accounting and Finance *Oct 2021 – Jan 2025*
CNTEMAD, Madagascar

Mathematics *Oct 2020 – Sep 2022*
Faculté des Sciences, Ankatso, Madagascar

SKILLS

Programming & Frameworks: Python, TypeScript, Java, LaTeX, Flask, FastAPI, Uvicorn, SQL, Streamlit

AI & Machine Learning: LLMOps, AI Agents, LLMs (Gemma, Gemini, VLLM, Ollama), Hugging Face Products, LangChain, LangGraph, Text-to-Speech, WhisperX

DevOps & Infrastructure: Kubernetes, Docker, DevOps, GitHub Actions, Data Version Control, MLFlow, Grafana, AMQP

Databases: PostgreSQL, Redis, Qdrant (Vector DB), Milvus (Vector DB), Pinecone (Vector DB), Neo4j (Graph DB), Cypher

Data Science: Pandas, NumPy, SciPy, Seaborn, Matplotlib, Scikit-learn

Mathematics: Linear Algebra, Calculus, Statistics and Probability Theorems

Tools: Git/GitHub, Jupyter Notebook, Google Colab, VSCode, Lens, Octant, kubectl

LANGUAGES

English: High Intermediate | **French:** Advanced | **Malagasy:** Native
